Yayasan Kasih Mandiri Bersinar

Proposal Project for Street

Children

To:

**THE BOARD THE STICHTING KLEINSCHALIGE PROJECTEN INDONESIA
BINNENWIENRTZSTRAAT 9 5615 HE EINDHOVEN NEDERLAND**

Dear Mr. Anton,

Starting 2019, Yayasan Kasih Mandiri Bersinar has given attention to underprivileged children in Ende-Flores Regency, NTT. We are grateful because we received financial support to carry out these activities. Some of the activities that we do is to get to know the children and their families better especially the difficulties they face. The economic situations and conditions of the underprivileged community cause children from time to time to experience a lack of interest in learning to support their enthusiasm for achieving their future well. Then education is one of the factors causing poverty.

Underprivileged children in Ende come from families which lack of education so that they cannot get decent work. Finally, they only work as unskilled job, such as laborers in the harbor, washing people's clothes. Parents who have low educational background educating their children according to their educational background. Many children are left behind by their parents because their parents have to make a living outside the island so the children live with their grandparents, uncles or aunts whose economic conditions are also very bad. These causes children only playing without caring about studying. The lack of knowledge makes the poverty. This .does not change from time to time.

We feel pressured to help them change their lives for the better. One way is to provide scholarships to these children so that they have better education which are needed . We hope that with adequate education in the future they can choose good jobs to uplift their family's economy. We think what we do for these children is not enough to give only scholarships. Therefore we build extra-curricular activities outside of school to build children's character. To carry out extra activities outside of this school, we approach the parents of scholarship recipients as well as teachers in their respective schools to be actively involved in supporting and allowing their children to take part in training programs outside school every Saturday from 3.30 pm – 5 .00 pm

So far we have done some activities both for some of the children as well as the parents of scholarship recipients.

To achieve our plan, we need support. We can't do it alone because of our limitations. Yayasan Kasih Mandiri Bersinar asking for help from SKPI to help us by providing us with sufficient funding to achieve our projects. We will manage the funding well as we will report it transparently. We sincerely hope that you will support our project and we will use the money from the funding for underprivileged children in Ende and street children in Jakarta.

May God give health and protection in His mercy to all of us.

Sincerely,

The image shows a circular official stamp of Yayasan Kasih Mandiri Bersinar (YKMB). The stamp contains the text: "YAYASAN KASIH MANDIRI BERSINAR", "Perindungan", "Bagi Anak-anak Terlantar", and "JAKART DAN SEKITARNYA". To the right of the stamp is a handwritten signature in blue ink.

II. Project

1. Organization

Yayasan Kasih Mandiri Bersinar has two projects. The first project, is distribution scholarships for elementary school for street children in Cimanggis-Depok. The second project is distribution scholarship for underprivileged children in Ende-Flores NTT.

The purpose of the two scholarship projects is to provide the widest possible opportunities for children who are poor and less skilled in the management of Yayasan Kasih Mandiri Bersinar .

1.a.

Street children (Cimanggis Depok) and underprivileged children in Ende-Flores NTT have very limited mobility. They seem to be confined and locked up by their environment . From time to time there are no significant changes to achieve the better future because their surroundings . The environment does not help to support for a better future. Finally they only work as scavengers, beggars, buskers, and others, and just help parents at home and in the garden. This is the caused of the lack of education background by parents . By having low levels of education of course they educate their children according to their backgrounds . These children are usually neglected because their parents have to earn for a living . These children are unsupervised , their parents unable to control in school and they are very risky to be subject from abusing neglecting and violence.

Most of street children in Jakarta, especially in Cimanggis, Depok are quite resolved because they already live in our foundation and participate in our educational programs at home and at school under the supervision of Yaysan Kasih Mandiri Bersinar in Jakarta.

1.b.

For underprivileged children in NTT's Ende-Floers, we only started in 2019. So it's still very new to us.

The strategies for implementing the scholarship project in Ende-Flores NTT are as follows:

- Approaching to the Parish Priest and his council to seek approval of our services for underprivileged children who live in the St.Donatus Bhoanawa church as the first service point.
- Retrieval of children's data by including parish Priests, Church Councils, neighborhood residents as well as school directors of recipient school; to obtain correct information that the children are worthy of getting scholarship.
- Counseling for all parents of scholarship recipient children to get to know the vision of the service of yayasan Kasih Mandiri Bersinar so that cooperation can be established properly.
- Recollection of all parents of scholarship recipient children to help educate children and spirituality at home.
- We have done some activities with some scholarship recipient children every Saturday afternoon. But some of them cannot attend because their house is too far from the church where they get together.

2. Project Description

2.a.

In the first project for elementary school children in Cimanggis Depok-Jakarta we will continue to improve their learning with a number of additional tutoring at home and other extracurricular activities.

2.b.

In the second project, the distribution of scholarship for underprivileged children in Ende-Flores, NTT, we will carry out a number of activities . It is no longer centered on the local Parish Church, instead it is closed to where they live.

3. Purpose and Target

3.a. Jakarta:

- All street children without parents will be able to accommodate in Yayasan Kasih Mandiri Bersinar.
- They will get activities properly and being supervised by us.
- They will learn the regulations in our foundation, disciplinary and responsibility.
- According to our government program all children are compulsory to attend school until the age of eighteen.
- For 2020-2021 there will be 15 scholarship recipients to be proposed with the total amount of Rp. 36.290.000 in Jakarta (*See attachment below*)

3.b. Ende

- The underprivileged children can join our program in Yayasan Kasih Mandiri Ende to be able to get scholarship.
- The scholarship recipients will get extra lessons from us;
Such as: spirituality, character building, working in team by playing games, dancing, etc.
- For 2020-2021 there will be 613 scholarship recipients to be proposed with the total amount of Rp. 270.600.000 in Ende (*See attachment below*)

4. The planning

This project is planned to last for one year and the following years we will continue with other new possibility way it could be the same one.

Sincerely,

Alexa Yonsion, OP
