To :

The board of the Foundation Kleinschalige Projecten Indonesië *

Meijhorst 61-04

6537 L J Nijmegen, Netherlands

Dear Mr. Anton,

Realino Foundation, until now, still seeking scholarships for children from poor families. Education is still the most important aspect for human life, if we want to alleviate the children from their poverty, we need to give them adequate education. But, in our consideration, the poor children need basic education and vocational education. Through that level of education, they can survive because they can find job for living. Continue to pursue higher education are also important but for the poor it was not urgent, because the most important is they can find job.

On 2016 scholarship applicants more than in 2015 with more complex problems. Based on the data from the scholarship applicants this year (2017). Scholarship applicants not only from a poor family but also come from troubled families. Some family problems that we found are divorce, conflict, struggle for inheritance, and other problems. Family problems interfere the entire family life, including economic problems. Divorcing parents make the economic situation is unstable, and the children become victims, they find difficulties to send their children to school because of economic condition. Scholarship applicants who come from divorced families nearly 30% of all applicants.

With the complexity of the problems especially family problems, we estimate that there will be many applicants' scholarships especially those who come from troubled families. We reflect that increased prosperity does not guarantee family life can live well.

Based from the data of the applicant, we have new awareness when we visited some elementary school in Jogjakarta. We realized that there are a lot of families that face difficulties to send their children to school due to economic conditions. We saw the economic discrepancy between the rich and the poor. Unfortunately, there are a lot of poor families that not get support from government. From that data, we reflected and decided that the urban poor are priority for us to help.

* SKPI is Stichting Kleinschalige Projecten Indonesië (Foundation Small Scale Projects Indonesia)
KvK: 53956168.
RSIN: 8510 89 136

Realino still want to help children from poor families of this, and because of our limitations, we still need help. So, again, we invite the board of the SKPI to support us by give scholarship to the poor children. Through your help and support, we can send more and more children to go to school, giving them hope for the better future.

Hopefully, you will support our project by give us funds and we will distribute that fund to the poor children. May God give health and blissfulness to you all.

Yogyakarta, 12 October 2017

II. Project

1. Organization

Realino Foundation has two projects. First, distribution of scholarship for the poor children from the donor as a main project. Second, empowerment project for the poor; street children, homeless, etc. We initiatives workshop/training in wood and welding for the young people, electronics and accompanying children in the slum.

The aim of the main project is; education for the poor children. All Children have their rights to get education to prepare their future. The problem is that many children still cannot go to school because of the economic condition. The government has been trying to pay attention with various assistance but there are still many children who don't have access to get the assistance.

Based on that awareness, the strategies to perform this project are:

- Finding donors (from communities, institutions or individuals) and we offer the rich families to be foster parents of the poor children. We attempted to provide complete data so that donors are sure that they are helping the poor child.

- Working in a team. We involve volunteers which are university students who around the time of application (June) would usually be in their semester break. During the semester break, they usually go back to their hometown. We ask them to observe and interview applicants for our scholarship program from their own village. They use a form of observation and interviews that we specify. For example, the university student from Wonosari will visit and interview scholarship applicants from Wonosari and so on. So it is possible to visit the scholarship applicant one by one.

2. Description of the project

All children have rights to get education, especially the poor. Through education, people will have bigger chance to make a better future. This awareness makes us try to find donors to pay the schools tuition for that poor student.

In my proposal (2018), I have targeted to give scholarship for 430 students and I requested SKPI to support 210 students from 430 students we targeted. We try to get donation from local donors for 220 students. We estimate average school fees based last semester tuition. We have estimation for elementary is Rp. 350.000/semester, junior school is Rp. 420.000/semester and for the vocational high school is Rp. 900.000/semester. We open registration for applicant 1-20 of June, and all applicants will be selected (observation and interview) and announced on July 20. We can't predict how much new applicant will apply, in what grade they are, and how much the school tuition. So the estimation can be missed. If it happened, we will adjust the number of children to be assisted.

We give the scholarship depending on the condition of the parents. Most of the parents asked support only for school tuition. But, some parents also need more support. They also asked support for books and school uniforms. The proposal that we give to you is scholarship that is only for school tuition.

We tried to involve schools and parents to determine the amount of scholarships will be given. Because of these considerations, the scholarship amount will be different.

Differences in the amount of scholarships are based on several considerations:

- Depending on the School Committee.
The different amount of the scholarship depends on the kind of school, either public or private school. First, usually the school tuition of private school is more expensive than public school. Second, to decide the school tuition, the government asked each school to make the "school committee". The School Committee consist of several element;

representatives of teachers, parents, advisory, government, etc. The School Committee will consider and decide the school policy, including school tuition, payment of books, uniforms, etc. So each school can make a different decision about the tuition.

Nowadays, government often changes the policy in education, almost every year they change the policy, especially in term of subsidy for school tuition. They want to find the better system but the consequences are the school tuition that always change.

- Depending on the condition of the parents.

Our scholarship program do not merely support parents to pay school tuition. We also asked contribution from the parents. Principally we collaborate with parents. We encourage parents not to solely depend on us, but they should strive to contribute to the education of their own children. No matter what or how much contribution they can give, the most important thing is their effort to support their children. Some parents can contribute 25% of the school tuition. Some parents can provide uniforms and books for their own children.

- Depending on the results of observations and interviews.

We base our decisions of the amount of the scholarship given on the observations and interviews with the applicants and the parents. If we realize that the parents need more support, we will try to give more. But if according to observations and interviews the parents have capability to give contribution to their children, we asked them to give a contribution.

3. Purpose and Aim

Targets of this project are poor children can complete primary education (elementary and junior high school) and gain skills from vocational schools. We have targeted 430 children from elementary schools to vocational high school and 7 young people undergoing training in the workshop.

There are many things that unpredictable when accepting scholarship applicants:

- The school tuition

Every year we have discussed with the school and parents to decide the scholarship we will give to the student. Nonetheless, we have to estimate the school tuition. We have estimation for elementary is Rp. 350.000/semester, junior school is Rp. 420.000/semester and for the vocational high school is Rp. 900.000/semester. We prioritize donations from SPKI for elementary school students and junior high school student.

- The applicant

Every year, we can't predict how much student from elementary, junior high school and vocational high school student will apply. In 2017, we have a target to receive 450 applicant. We did not impose the number of the candidates based on the targets but based on selection. After selection process, we received 422 children. From 422 student, SKPI helps 251 student; 88 elementary student, 145 junior high school student and 16 vocational school student.

In 2018, we have a target to give scholarships to 430 children. From that number, we asked SKPI to support 205 children, the rest, we will look for local donors. We are aware that it is not easy to find a local donor, but we should try to involve everyone to care these poor children. We invite local institution and individual to support these children through some programs; foster parent, peer helper, etc. Attempts to involve local donors also encourages them to care to the poor.

4. Planning

The project will be for one year and will be annually renewed.

5. Evaluation

Evaluation is done by academic result of scholarship recipients. Evaluation for the training workshop is done by observing workshop productivity; more productivity means more skilled trainees.

III. Financial

1. Financial estimation

a. Scholarship

Item	Detail	Quantity	Estimation
2 nd semester, January 2018- June 2018	Continuous Scholarship (listed below); <ul style="list-style-type: none"> • 78 elementary students, • 83 junior high school students, 	<ul style="list-style-type: none"> • Rp. 18.426.000 • Rp. 29.520.000 	Rp. 96.444.000 (January-June 2018)

	<ul style="list-style-type: none"> • 63 vocational students. 	<ul style="list-style-type: none"> • Rp. 48.498.000 	
1 st semester, July 2018-December 2018	430 children Continuous <ul style="list-style-type: none"> • 57 elementary students, • 49 junior high school students, • 43 vocational students. New recipients <ul style="list-style-type: none"> • 281 student, Rp. 412.088/semester 	<ul style="list-style-type: none"> • Rp. 12.978.000 • Rp. 17.280.000 • Rp. 33.270.000 • Rp. 115.796.728 	Rp. 179.324.728 (July-December 2017)
	Total		Rp. 275.768.728

b. The cost of training workshop

Item	Detail	Estimation for 1 year
Allowance for trainee	7 trainee Rp 500.000/month	Rp. 42.000.000
Living cost in dormitory	7 trainee Rp 200.000/month 7 Students Rp 200.000/month	Rp. 33.600.000
Raw material (wood and iron)		Rp. 20.000.000
Accumulated Depreciation Expense of Equipment		Rp. 10.000.000
	Total for 1 year	Rp. 105.600.000

2. Portofolio

c. Scholarship

Item	Detail	Quantity	Estimation /year
Scholarship for 1 years (2 nd semester	Foster parent	20 Children	Rp. 8.241.760
	Individual	15 Children	Rp. 6.181.320

January-June 2018 and 1 st semester July- December 2018)	Local donor (institution, schools, churches)	190 Children	Rp. 78.296.720
Total for 1 year			Rp. 92.719.800

d. Training Workshop

Item	Estimation per year
Production profit (wood and metal)	Rp. 80.000.000
Local donor (individual, institution, church)	RP. 25.600.000
Total for 1 year	Rp. 105.600.000

3. Sumittance Small Project Indonesia

The fund that will be asking from the Foundation Small Project Indonesia:

- a. We are optimistic to increase productivity so that our finances will be balanced, so, we can run our workshop by ourselves.
- b. We need help for educational scholarships for poor children:

Item	Detail	Quantity	Total
Scholarship for 2 nd semester, January-June 2018	Continuous recipient; <ul style="list-style-type: none"> • 78 elementary students, • 83 junior high school students, • 63 vocational students. Total 2 children, (listed below)	<ul style="list-style-type: none"> • Rp. 18.426.000 • Rp. 29.520.000 • Rp. 48.498.000 	Rp. 96.444.000 (January-June 2018)
Scholarship for 1 st semester, July-December 2018	Continuous recipient; <ul style="list-style-type: none"> • 57 elementary students, 	<ul style="list-style-type: none"> • Rp. 12.978.000 	Rp. 94.846.688

	<ul style="list-style-type: none"> • 49 junior high school students, • 43 vocational students. <p>New scholarship recipients: 76 Student, Rp. 412.088/semester</p>	<ul style="list-style-type: none"> • Rp. 17.280.000 • Rp. 33.270.000 • Rp. 31.318.688 	(July-December 2018)
Total Scholarship			Rp. 191.290.688 Total school tuition for 1 year

IV. Overseeing the Progress

1. Specification of expenditure

We will ensure that all fund you give will be well manage (all the transactions and receipts will be documented).

2. Report of Progress

Realino Foundation will report the progress of the project per semester (6 month) after we distribute the scholarship to the children.

Yogyakarta, 12 October 2017

Yohanes Adrianto Dwi. M, SJ
Director of Realino Foundation
