Proposal of Education Scholarship 2020

SPM/5.b.061/x/2019

To:

The Board of the Stichting Kleinschalige Projecten Indonesië

Meijhorst 61-04

6537 L J Nijmegen, Netherlands

Dear Mr. Anton,

Yayasan Realino Seksi Pengabdian Masyarakat (SPM) or better known as SPM Realino has consistently committed to help the poor children who have difficulties to access education. The commitment is strongly encouraged by the significant numbers of families proposing for education scholarship to SPM Realino. Every year, there are approximately 550 children applying for the scholarship. After going through the selection process, around 400 applicants are admitted for scholarship. With this figure, we presume that 80% of applicants come from poor families.

In the last few years, the government has increasingly provided educational supports for poor children. However, there are some requirements that make poor children are eligible for government's support. The eligibility for government funding requires that the children of poor families are students of public schools and that their parents have local ID (KTP/Kartu Tanda Penduduk). In fact, most of the poor families migrate from rural areas to urban settings such as Yogyakarta in the hope for better living. Therefore, they do not fall under the local ID criterion. In addition, entering public schools is a matter of competition for limited quota because children should pass the entrance test. The poor children who lack of supportive educational facilities and nurturing environment back home will find difficulties to successfully pass the entrance test. In this context, SPM Realino work for scholarship is still relevant.

We have prioritized the education scholarship for students of Vocational High School (SMK/Sekolah Menengah Kejuruan) because they prepare themselves with useful skills for employments. This priority is still relevant today while the Government is also developing the quality of SMK. The grantees of scholarship who went to vocational schools often share with

Yayasan Realino Seksi Pengabdian Masyarakat

Jl. Mataram 66 Yogyakarta, Indonesia

Phone +62-274-566610

us that they have got employments at their graduations. Our scholarship scheme is also intended as assistance for their character building that forms their work ethic.

In this valuable opportunity, we submit proposal to Stichting Kleinschalige Projecten Indonesië to help us providing education scholarship to the poor children in Indonesia. We thank SKPI for your ongoing commitment to support poor children's education for their better future in collaboration with SPM Realino.

Yogyakarta, October 22th 2019

Yohanes Adrianto Dwi Mulyono SJ

Director of SPM Realino

II. Project

1. Organization

SPM Realino has two main programs. Firstly, we provide educational scholarship to the poor children who are at the level of elementary school, junior high school, and vocational high school. Secondly, we facilitate social empowerment for marginalized groups. This proposal is proposed for educational scholarship program for the poor children.

The purpose of this program is to facilitate access for the poor children to have education by providing scholarship. We recognize that poor children have inherent right to access education. As an integral element of human development, education will help human beings to liberate themselves of poverty and achieve better future. There are still many children in Indonesia who can not enter schools because of poverty.

Yayasan Realino Seksi Pengabdian Masyarakat

Jl. Mataram 66 Yogyakarta, Indonesia

Phone +62-274-566610

The strategy that we manage to provide education scholarship for the poor children are as follows:

- a. We look for the funding from donors (individual, corporate, foundation, etc.) and offer some families to be foster families for the poor children by supporting their educational fees. We will provide the data of children who are in need of help and make accountable report.
- b. We work and collaborate with stakeholders, such as parents, school committees, schools management, heads of neighborhood and hamlets, and volunteers to provide recommendation for the poor children who need support and simultaneously conduct selection process for the scholarship applicants. Based on the selection result, we will provide the educational scholarship for the selected children.

2. Description of the project

The main objective of this proposal is to give education scholarship for the poor children because education is the right of every children. In 2020, we will target 430 children to get education scholarship. We invoke that SKPI can help us to support 200 children and we will find another local donors to help the other 230.

The nominal estimation of scholarship we will provide is based on the average educational fees in 2018-2019. Last year, the educational fees for elementary school student was Rp 365,000.00/semester, junior high school was Rp 650,000.00/semester, and vocational high school was Rp 950,000.00/semester. Every year, the cost normally tends to increase.

The process of awarding the scholarship will be started by the registration to be imposed on June 1st -20th 2020. In that process, the applicants will fill out the form and complete it with some documents and recommendations from the institution or authorized persons such as head of neighbourhood (RT/RW), local Church, and school. In this process, we can not predict the number of applicants. However, the annual average number of applicants are around 550 children.

Yayasan Realino Seksi Pengabdian Masyarakat

Jl. Mataram 66 Yogyakarta, Indonesia

Phone +62-274-566610

After finishing the selection process, the announcement of grantees will be posted on July 25th 2020. The next process will be the distribution of the educational support to the grantees. The amount of the distribution will not be similar for each grantee. Here are the influencing factors:

- **The family condition**

The family conditions of grantees are diverse. Some children need full support because their parents are not able to pay educational fees at all. Some parents could support half of school fees, so that their children will have smaller amount of scholarship. We found a single mother who is working as scavenger with two daughters. Her children needed more subsidies. In many cases, the poor children usually are not entitled to sufficient learning facilities. Many of them also have less nurturing attention from their parents. These kinds of environments were identified from our survey or from accountable recommendation. During survey, we visited the applicants and met their parents to check their living condition in order to consider the amount of subsidies that they need.

- **The school condition**

By the Government Regulation No. 47/2008 Chapter VI Article 9, the Governments at the national and regional levels are mandated to ensure the implementation of compulsory education programme, at least at the elementary level, which is free of charge. However, the government's vision of 9-years free compulsory education programme have not been implemented for all schools as expected. In fact, the free education is intended primarily for public schools and in practice is not totally free. The free charge is implemented mostly for the operational school fees. Thus, the parents still have to pay for direct expenses (books, uniforms, and stationaries) and also indirect ones (transportation, additional course, pocket money). For the time being, this kind of free education is implemented for students at public elementary school (SD) and junior high school (SMP). The students of vocational school (SMK) still pay for tuition fee.

With the above-mentioned practice, children of public schools will pay smaller fees than children of private schools. Many children will aspire to enter public schools whereas the quota of acceptance are limited. Those who are successful in the entrance test for public schools will enjoy the benefit of the lower school fees. For those who are

Yayasan Realino Seksi Pengabdian Masyarakat

Jl. Mataram 66 Yogyakarta, Indonesia

Phone +62-274-566610

failed, the private schools are the only options. This will create difficulties among the poor children who can not afford the tuition fee at private schools.

The quality of education at public and private schools also varies. Not all public schools have quality education. The dilemma comes up when children were accepted at public schools with low quality. The parents usually will choose to send their children to better private schools with tuition fee rather than to cheaper but low-quality public schools.

- **The communication with the school**

In the process of determining the amount of scholarship, SPM Realino also builds communication with the schools. We invite school stakeholders to engage in helping the children who are not able to apply for the scholarship. Some schools are quite sensitive to the condition of poor students and committed to apply lower school fees.

3. Purpose and Aim

This project targets that the poor children complete their basic education (elementary and junior high school) and complete their vocational education. We will target 430 applicants to be scholarship grantees. As what has been explained above, there are some factors that can not be predicted for scholarship admission. Here are some influencing factors:

- **Tuition fees**

Every year schools can change their policy on tuition fees for students in general and for poor students. Responding to the uncertain changes on the amount of the tuition fees, we have made estimation of educational fees. The prediction usually do not differentiate considerably from the fees that are charged to students normally. The fees for elementary school students is around Rp 365,000.00/semester, for junior high school student is Rp 650,000.00/semester, and for vocational high school student is Rp 950,000.00/semester.

- **Scholarship applicants**

Every year, the numbers of applicants are always different and can not be predicted. However, the average total number is 550 per year. In 2019, the number of applicants was 563 and 385 of them were accepted. Among these 385 grantees, SKPI has

Yayasan Realino Seksi Pengabdian Masyarakat

Jl. Mataram 66 Yogyakarta, Indonesia

Phone +62-274-566610

supported the scholarship for 224 children in the second semester at the school year of 2018/2019 and 205 children in the first semester at the school year of 2019/2020. In 2020, we propose that SKPI will support the scholarship for 200 poor children. We will also invite local donors, foster parents, and some institutions to support 220 other poor children without support from government or any organizations.

4. Planning

The project will last for one year and it will be renewed and extended in the following year.

5. Evaluation

Evaluation and monitoring of the education scholarship project will be conducted in two ways:

- a. The scholarship will be distributed every semester. The students have to submit learning report every semester in order to have scholarship for the next semester.
- b. The monitoring is provided by requiring the grantees to submit either the proof of direct payment from the school or the proof of bank transfer to the school.

III. Financial

1. Financial estimation

a. Scholarship

Item	Detail	Quantity	Estimation
2 nd semester, January 2020- June 2020	Continuing scholarship (listed below):		Rp 80.910.000 (January- June 2020)
	• 84 elementary school students	• Rp 19.200.000	
	• 81 junior high school students	• Rp 29.760.000	
	• 40 vocational school students	• Rp 31.950.000	
1 st semester, July 2020- December 2020	Continuing scholarship (135 students)		Rp 193.624.800 (July- December 2019)
	• 62 elementary school students	• Rp 12.810.000	
	• 55 junior high school students	• Rp 21.120.000	
	• 18 vocational school students	• Rp 12.300.000	
	New recipients • 225 students Rp 655.088/semester	• Rp 147.394.800	
	Total		Rp 274.534.800

2. Portofolio

b. Scholarship

Item	Detail	Quantity	Estimation/year
Scholarship for 1 year (2 nd semester of January-June 2020 and 1 st semester of July-December 2020)	Foster parent	36 children	Rp 23.583.168
	Local donor (institution, schools, Churches)	194 children	Rp 127.087.072
	Total for 1 year		Rp 150.670.240

3. The Sumittance of Small Project Indonesia

The funds we propose for the education scholarship from the Foundation Small Project Indonesia are as follows:

Item	Detail	Quantity	Total
Scholarship for 2 nd semester, January-June 2020	Continuing recipients: 84 elementary school students	• Rp 19.200.000	Rp 80.910.000 (January-June 2020)
	81 junior high school students	• Rp 29.760.000	
	40 vocational school students (listed below)	• Rp 31.950.000	
Scholarship for 1 st semester, July-December 2020	Continuing recipient: 62 elementary students	• Rp 12.810.000	Rp 88.810.720 (July-December 2020)
	55 junior high school students	• Rp 21.120.000	
	18 vocational school students	• Rp 12.300.000	
	New scholarship recipients: 65 students @Rp 655.088 per semester	• Rp 42.580.720	
Total Scholarship			Rp 169.720.720 Total school tuition for 1 year

IV. Overseeing the Progress

1. Specification of expenditure

We will manage all accountable funds by logging all transactions and documenting the proofs of payment.

2. Report of Progress

SPM Realino will report on the use of funds after all funds are distributed to the scholarship grantees in October each year.
